briox

Product Updates: R16.1, February 2016

A new Brand: Fortnox goes Briox!

You can read more about the various new functionalities in the Release Document section of the Help Centre.

New in purchases

Customise your supplier invoice list
A list setting enables you to choose just which columns are to be displayed in your supplier invoice list.

Where: Purchases - Supplier Invoices

New in the CRM

A detailed sales report
A **detailed sales report** has been added to the list of reports available under the CRM. This new report offers other ways of ordering and filtering your data offering a new focus, per salesman and area, to the report.

Where: Reports - CRM
