Product Updates: R16.2, May 2016

Here is what is new in Briox

You can read more about the various new functionalities in the Release Document section of the Help Centre.

Email Reminders

The reminder management functionality now offers you the possibility to mass manage your reminders and e-mail them directly from the reminder list. Create a special reminder e-mail text, choose a templates for your customers and send all your reminders by e-mail in a click.

Where: Sales - Reminders

Detailed Time Attachments

The purpose of the updated time attachments is to offer you and your invoice recipients a clear and structured overview of your invoicing data and comments.

- Invoiced hours are organised by date in the attachment
- Comments are linked to the posts they are related to
- The attachment remains editable until the invoice is created and lands in the invoice list
- The attachments is always created & can be detached from the Time Invoice
- The attachment is stored in the Archive
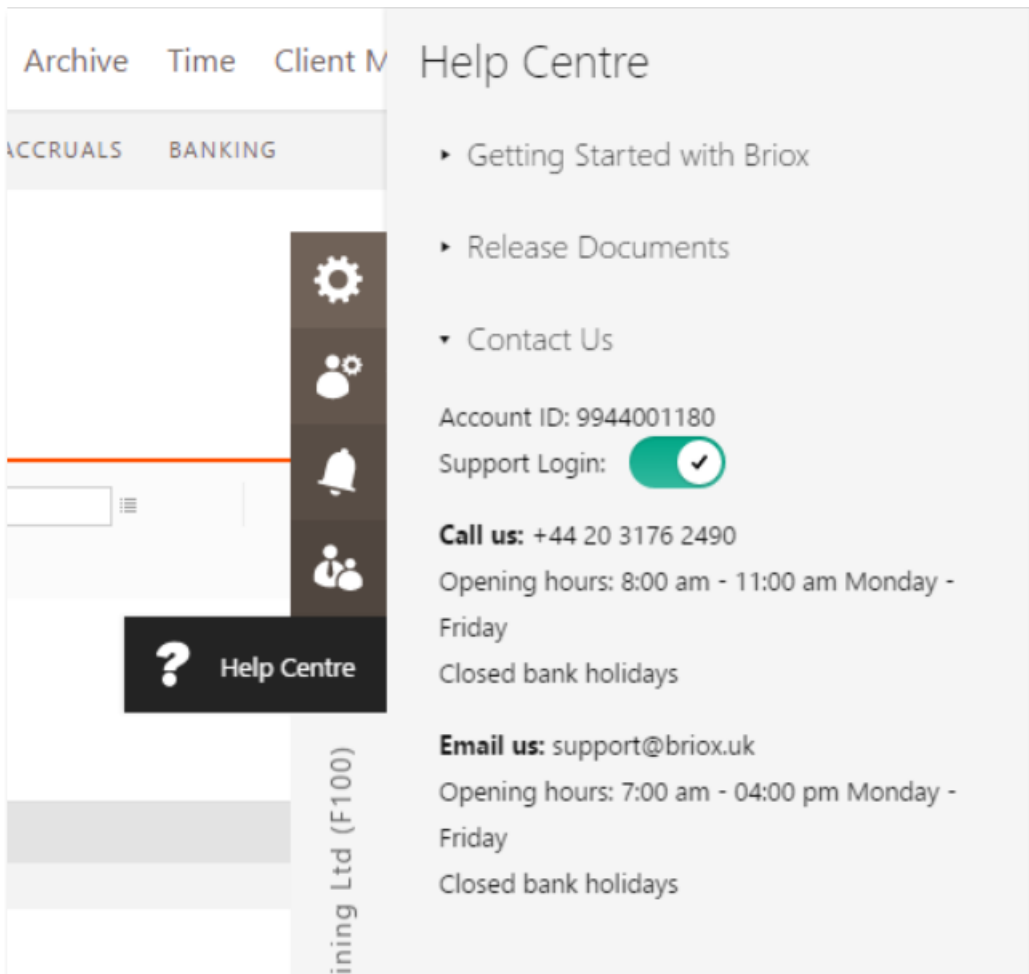

Where: Time - Invoicing

Quick Settings in Lists

All our major lists have been enhanced with a **Quick Setting** so that you can customise your lists to suit your preference.

Move the Help Centre to the Sidebar

Product Updates: R16.2, May 2016

The Help Centre has been moved from the bottom of the screen to the sidebar for easier access and better overview. Expect more help to appear there so keep an eye on the tab!
