

Product Updates: R13.2, Januari 2014

Here is what is new in Fortnox:

You can read more about the various new functionalities in the **Release Document** section of the **Help Centre**.

Invoicing/Order

- A new easy-to-use **Print Template Editor** is being launched together with a new **collection of Standard Templates**: Quote, Order, Invoice, Packing Slip and Reminder.
The template editor offers a variety of fonts and sizes as well a variety of editable drag and drop elements, enabling you to easily build up a custom invoice template containing all the elements you wish.
Where: Settings – Invoicing – General – Printout Templates – Add New Templates
- **Disable customer**
If you no longer wish to see a certain customer in the registry you can now hide the customer by disabling it.
Where: Under Invoicing – Registry – Customers.

Accounting

- Two new reports are available for a detailed analysis of unpaid invoices:
 - **The Supplier Ageing Analysis Report**
 - **The Customer Ageing Analysis Report***Where: Accounting - Reports*
- **Improved VAT management in Fortnox**
 - All **VAT Settings** have been gathered in one place to facilitate VAT Management
 - A **VAT period** setting has been added, enabling you to create a VAT period parallel to the Financial Year.
 - **Cash basis VAT reporting** is also available and can be chosen as VAT scheme when you create your VAT period.
 - To be able to populate the VAT report generator with more options and information, **the VAT report has now also been given its own tab** under Reports.
 - New is also a **Vat Reconciliation Functionality** avoiding double reporting by mistake, and enabling the reporting of delayed transactions in the following period's VAT report.

Product Updates: R13.2, Januari 2014

- The **Detailed VAT report** gets a new appearance, with new groupings of the various transactions
 - **View VAT report History**: A new functionality enabling you to view all previously submitted VAT reports is now available in the VAT report generator view.
- **Linked VAT** reports can now be viewed directly from the journal list

Where:

Settings - Accounting - General - VAT

Accounting - Reports - Vat Report

Accounting - List

Client Manager

- Accountant Partners now have the possibility to upload their **own logos and recreate their color themes in Fortnox** for themselves as well as all their client accounts.

Where: Settings - Client Manager - Theme
