FORTNOX

Product Updates: R15.1, March 2015

Here is what is new in Fortnox:

You can read more about the various new functionalities in the Release Document section of the Help Centre.

Accounting

Banking

Bank statements in the following file format: **SEPA (camt.053.001.02)** can now be uploaded to **Fortnox Banking**.

> *Where:*
> *Accounting - Accounting - Banking - Import bank statements*

Order - Time

Quote Time

Quote time is a new feature for users who have both **Order** and **Time**.

Quote time enables you to quote time assignments to your customers. If the quote is accepted, you can with a simple click turn the quote into an assignment in **Time** and use this assignment to report time on. If you have **Fortnox Invoicing**, you can then invoice your customer for your time.

> *Where:*
> *Quote / Time / Invoicing*

Invoicing

Long Descriptions

If you want the **long descriptions** you register on your items in the registry to appear on your **invoices, orders or quotes,** you need to create a **printout template** that accommodates them.

FORTNOX

Product Updates: R15.1, March 2015

Client Manager

Template Accounts

The possibility to **clone accounts** when creating new accounts for your customers in your **Client Manager** offers the possibility to copy journal templates, printout templates, chart of accounts and other account settings, from one account to another.
